

TECHNICAL DATA

SPITA ResQ-plast is a medical approved bandage/plaster you may apply direct onto the skin to cover a bleeding* wound.

It can also be used as prevention for cuts when using sharp objects.

***We recommend the use of an appropriate disinfectant on a bleeding wound first!! ResQ-plast is excellent for this method of wound care.**

ResQ-plast Professional

Property	Result
Composition	55% cotton / 40% polypropylene/ 5% spandex
Tensile strength	88N
Weave	Loops 0,35 mm / Density 65
Adhesion strength	>2,25N
Width tolerance	+/- 1 mm
Length tolerance	10 mm
Elasticity	Ratio 1 : 2
Lifespan	> 5 years
Storage recommendation	Do not store in direct sunlight (UV-radiation)
